

Mathematics

The mathematics curriculum is currently delivered through White Rose Maths, which is creative primary planning with very clear learning objectives and expected outcomes, together with integrated problem solving and reasoning.

Additional resources from iSee Reasoning and Classroom Secrets enhance the mastery approach to the curriculum.

Reception, Year 1 and Year 2 staff are currently undertaking the Mastering Number programme through Origins Maths Hub.

Children have daily mental arithmetic learning and we use Times Tables Rock Stars to support their knowledge and understanding of times tables.

Further details can be found on our Calculations Policy, which details our approach to teaching mathematics using Concrete, Pictorial and Abstract methods.
